

Capability Statement

Core Competencies

The Burrello Group utilizes their expertise as a Certified Lean Six Sigma Master Black Belt, Business Analyst, and Systems Engineer to support NGA's goal of minimizing strategic surprises and enhancing decision-making abilities. By enhancing strategic warning, mission forecasting, and military intelligence, we aim to outpace our rivals by prioritizing strategic research and development initiatives to leverage new technologies and capabilities.

Differentiators

- **Strategic Business Analyst** – Spearhead critical initiatives as a Senior Business Analyst in the NGA Office of Strategic Operations, working closely with key stakeholders to develop a forward-looking Strategic Framework that mirrors the vision of the NGA Director.
- **Advanced Systems Engineer** – Drive innovation as the lead specialist at the NRO Office of Chief Architect, overseeing the production and dissemination of the cutting-edge Validated Online Lifecycle Threat (VOLT) report for NRO satellite acquisition programs.
- **Process Improvement Specialist** – Demonstrated expertise as a Certified Lean Six Sigma Master Black Belt at the NGA Business Improvement Office, providing exceptional guidance and training to Project Champions and Green Belt candidates across various ranks within NGA.

Past Performance

- NGA Emerald Contract: September 2023 – on-going
- NRO Inceptum Contract: November 2022 – August 2023
- NRO Rawhide Contract: November 2016 – August 2022
- NGA SEIN Contract: September 2015 – September 2016

Company Data

Over four decades of experience in providing business analytics, systems engineering, and process improvement assistance to NGA, NRO, DNI, and additional federal agencies.
